

WINE & SPIRITS SOLUTIONS

Serving top shelf logistics solutions.

DB Schenker understands the unique needs of wine and spirits logistics. As an industry leader, we leverage our qualified experience and unparalleled customer support to move your products safely, efficiently and economically. We open your beverages to a world of possibility by providing flexible and scalable solutions to optimize your international exportation.

Adding value to your wine and spirits supply chain, while minimizing additional costs. Benefit from our global presence, local expertise and commitment to quality to ensure your goods arrive on time, and in exceptional condition. Our weight based quoting proves we are as mindful of your budget as you are. When searching for a pathway across the ocean, let DB Schenker be your guide.

Wine & Spirits solutions at-a-glance:

- **The right size for your shipment:** Full and less-than-container load (FCL / LCL) transportation is available to your door, dock, or yard. You tell us where you need to go and we will deliver your product where you want it, when you want it, hassle free, at a price that makes sense.
- **The key is in consolidation:** We control all of our consolidations, which means we offer a variety of routing and transit times for your air and ocean freight. With most major ports offering regular consolidations, defined departure dates and fixed sailing schedules, we provide the best options for your shipments.
- **Consideration for your cargo:** Taking extra care of your shipment is top priority. Ship confidently knowing we provide a climatecontrolled warehouse, insulation kits, special stow and pallet wrap.
- **Value in addition to service:** DB Schenker will get your freight consumer-ready with services such as packaging, sorting, kitting or labeling and arrange special delivery or specific times, including inside delivery/set up options.
- **Advanced monitoring technology:** DB SCHENKERsmartbox produces real-time shipment transparency that reports location coordinates temperature and other environmental factors that could affect your product. Receive a notification should any data stray outside of customized parameters.
- **Leave the paperwork to us:** We handle the transport documentation, insurance and origin customs formalities. DB Schenker is compliant with up-to-date security measures and can adhere to all of your documentation processes.

Ready to start shipping? We're always ready to deliver. Want to talk about how much money you could save by shipping with DB Schenker Wine & Spirits? Tell us your logistics goals and we'll show you how to get there. Contact us today to find out how we can serve you.

DB Schenker Wine & Spirits.

Your business. Plus a splash of logistics expertise.

Reach any destination, easily and reliably – Our Industrial Solutions enable you to meet your requirements.

Mix your wine and spirits with our expertise.

Our specialized industry-specific global support team, understands your language and unique challenges. No project is too large for DB Schenker. Leveraging our established relationships with global carriers and key service providers, our project specialists can meet the most demanding project cargo requirements. With the widest selection of ocean freight sailings in the industry, dedicated flight agreements, and the largest rail and land network in Europe, transport is always reliable and secure. An exclusive team assigned to every project ensures your critical machinery and project cargo moves quickly and efficiently.

Giving you visibility, another way we raise the standard of ocean freight delivery.

From purchase order to final delivery, DB Schenker ICM uses best-of-breed supply chain management software that enables you to plan, track and make informed decisions via online, on-demand visibility applications that put you in control. You get accurate and timely information whenever you need it, along with the confidence that your cargo is in experienced hands all the way.

Entrust us with your wine and spirits shipments.

We leverage our global resources to help your business connect with industry experts all around the world, in even the most remote locations. Over 91,000 employees in over 2,000 locations across 130 countries are ready to help represent your business interests with time-definite transportation and logistics services.
